EDUCATION

B.S. in Computer Engineering
California State Polytechnic University, Pomona

09/2016 – 05/2020   *Cumulative GPA: 3.47*

Relevant Coursework

- Software Engineering
- Object-Oriented Programming
- Data Structures
- Discrete Structures

PROJECTS

Song Search (06/2020)
- Created a client-side web application that allows users to input lyrics to find the the names of songs they may have forgotten.
- Utilized Genius API to search and match lyrics to songs.
- Live at: https://vectorle.github.io/song-search/
- Source code: https://github.com/VectorLe/song-search

Ecommerce Store (05/2020)
- Developed a front-end web application using React to create an Ecommerce store that utilizes Stripe API to process transactions.
- Uses React Hooks to manage state, side-effects, and context.
- Live at: https://vectorle.github.io/ecommerce-store/
- Source code: https://github.com/VectorLe/ecommerce-store

Ticket System (12/2019 – 01/2020)
- Designed and built a full-stack web application using the MERN stack that allows teams/users to submit support tickets to manage bugs, requests, and other technical problems.
- Utilizes Charts.js to visualize and display data regarding all available tickets.
- Source code: https://github.com/VectorLe/ticket-system

Blog App (02/2019)
- Constructed a simple full-stack web application with HTML, CSS, MongoDB, Express.js, and Node.js that allows a user to create and manage blog posts.
- Source code: https://github.com/VectorLe/blog-app

TECHNICAL SKILLS

HTML5 · CSS3 · JavaScript · React.js · Node.js · Express.js · MongoDB · jQuery · Bootstrap · Flexbox · Version Control · Linux · Bash Script · Gimp · Microsoft Office
